Submission Details

The specific provisions of the Proposal my submission relates to are as follows: The extension of the town centre taking in the green areas.

I support / oppose these provisions: I oppose in full

The reason(s) for my submission are: We purchased our property at 39 Simons Street having the green areas / reserves beside us and across the road for our use and our visual outlook. We never had any idea the town would take over the green areas / reserves for the town centre or any other use as to reduce the green areas for what Twizel is well known for.

I seek the following decision from the Mackenzie District Council: I appreciate the town centre needs to increase in size but not by taking in the green areas / reserves. Use the land where building currently are but not the grass areas.

I do or do not wish to be heard in support of my submission: I do

If others make a similar submission I would or would not be prepared to consider presenting a joint case with them at any hearing: I would

Additional information for this submission: I am not against progress and as Twizel grows an allowance for expansion for the Town Centre needs to be taken into the district plan but not taking in green areas / reserves.
