

Mackenzie District Council Tekapo Community Board Electing 4 Board Members

Carol SIMCOX

My principal place of residence is in the Tekapo Community Board area.

We can celebrate many improvements in the Tekapo village over the past few challenging years. However there is still much to be done in order for us to truly enjoy our stunning

environment and the privilege of living here.

The current Tekapo Community Board has built up a strong body of knowledge and having worked with MDC on recent significant projects such as the Tekapo Spatial Plan, Te Manahuna Ki Uta and the State Highway 8 improvements I'm keen to help keep the momentum going to develop a more community focused infrastructure.

The fabric of this community is held together by good people all doing their bit to look out for each other and contribute where they can to improve our resources and services. Experienced Community Board members just know a bit more about the (slow and winding) bureaucratic pathways to getting things done.
