To whom it may concern:

**Submission to be included for hearing on 29 November, 2022, Mackenzie District Council, Fairlie Plan Change 21 - Implementation of Spatial Plans - Specifically Burkes Pass**

The original spatial plan for Burkes Pass caused great concern for us as affected landowners and permanent residents of Burkes Pass. Our concerns were around walking/cycling tracks being implemented on private property and the health and safety concerns that could give rise to, in addition to the placement of one being between our home and tractor shed! Also we were concerned about the labelling of 'Heritage', to particular privately owned homes/our woolshed and the connotations that word gives in light of the RMA. We welcomed Council consultation and compromise and support the revised plan for inclusion in the District Plan.

Thank you
