		I support	
The proposed changes to lighting are an improvement on the old		Mackenzie is a leading authority in night sky protection from artificial light.	
The reason(s) for my regulations. We will see continued changes in lighting and how we use t	•	regulations. We will see continued changes in lighting and how we use them in housing and commercial properties. Further improvements in lighting plan changes regulations will need to be made regularly as lighting	

I seek the following decision from the Mackenzie District Council:	I would like to know from Mackenzie District council how we are going to test, collect and store light spill data from current and future buildings and infrastructure, in Lake Tekapo and surrounding district. This long term data trend should show improvements to any changes in light ordinances as they occur, to meet the objectives of the plan changes.
I do or do not wish to be	
heard in support of my	I do not
submission:	
If others make a similar submission I would or would not be prepared to consider presenting a joint case with them at	I would
any hearing:	
Additional information for this submission:	Could we use a standardized lighting measurement when collecting light spill data ? So we can make comparisons to other councils who do not have lighting regulations.
