HOW MUCH SHOULD WE INVEST IN ROADS?

I/we prefer **Option 1**: Set aside a maximum budget of \$300,000 for each year of the plan for roading improvement projects, and borrow to fund Council's 49% share of this amount.

I/we prefer Option 2: Include budgets in each year of the plan for all roading improvement projects that attract NZTA co-funding, and borrow to fund Council's 49% share.

I/we prefer Option 3: Borrow for all roading improvements projects whether they are co-funded or not.

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

Today's choices, tomorrow's Mackenzie

You can include additional feedback on the key issues or any other proposals included in the Draft Long Term Plan 2018–28 here:

For many this will be a principal strain made harder by the fact that it seems large exposure rural properties get a decrease.

MDC already have relatively healthy rates and I for one urge a rethink of this unreasonable ~~dep~~ demand for money from people that don't and won't benefit from this vision outlined in the document.

lastly why are we paying for Alps to Ocean projects, hardly a rate payers responsibility.

Cut or fold here to make the form A4 size for scanning or posting
