To: The Registrar
Environment Court
Christchurch

1 Glenrock Station Limited (**GSL**) wishes to be a party to the abovenamed appeal.

2 GSL made a submission and further submission to Plan Change 18 (Indigenous Biodiversity) (**PC18**) to the Mackenzie District Plan (**MDP**) that is the subject of these proceedings.

3 Notice of the decision on PC18 was received by GSL on 24 June 2021. GSL elected not to appeal the decision.

4 Glenrock Station and Holbrook Station (owned by GSL) are located within the Mackenzie Basin subzone and is subject to the MDP. In that respect, GSL has an interest in these proceedings greater than the interest that the general public has.

5 GSL is not a trade competitor for the purposes of section 308C or 308CA of the Act.

6 GSL is interested in all of the proceedings.

7 Without detracting from the generality of 6 above, those particular parts of the appeal in which GSL is interested, and whether it supports or opposes those parts are identified in **Appendix A**. Appendix A is not specific to this appeal and identifies GSL's position with respect to the following related appeals:

7.1.1 ENV-20210-CHC-91 – Meridian Energy Ltd (**MEL**)

7.1.2 ENV-20210-CHC-92 – Director-General of Conservation

7.1.3 ENV-20210-CHC-93 – Royal Forest and Bird Protection Society of New Zealand Incorporated

7.1.4 ENV-20210-CHC-94 – Environmental Defence Society Incorporated

- 8 GSL supports the relief sought by MEL in relation to the deletion of figure 1 and subsection (c) from the definition of '*significant indigenous vegetation and significant habitats of indigenous fauna*' because the map depicting Mackenzie Basin alluvial outwash and moraine ecosystems has not been ground-truthed or adequately consulted upon.
- 9 For all other appeals, GSL opposes the relief sought because the outcomes have the potential to impose inappropriate restriction(s) and increased consenting obligations on the current and future farming operations of GSL.
- 10 Further, GSL considers that the relief sought:
- 10.1.1 Is inconsistent with the Canterbury Policy Statement 2013 (**CRPS**) and fails to provide a pathway for development and use of land in accordance with the concept of sustainable management prescribed in the Act. The decisions version of PC18 should be preferred.
 - 10.1.2 Does not differentiate between maintenance clearance and new clearance activities, a matter of critical importance to the ongoing viability of current farming operations in the Makenzie Basin.
 - 10.1.3 Is inconsistent with section 32, the purposes and principals of part 2, and the requirements for district plans set out in sections 72, 74 and 75 of the Act.
 - 10.1.4 Will not promote certainty or provisions that are capable of construction and use by non-specialist users of the MDP.
 - 10.1.5 Is not supported by robust scientific assessment.
- 11 GSL agrees to participate in mediation or other alternative dispute resolution of the proceedings.

Dated 26 August 2021

Katherine Forward
Counsel for Glenrock Station Limited
