

Mackenzie District Council
Twizel Community Board
Electing 4 Board Members

Tony HODGES

My principal place of residence is in the Twizel Community Board area. I have the privilege of standing for the Twizel Community to be an active member advocating the voices of the community. I have always believed the Twizel area is the heart of the Mackenzie country. Twizel is now my home with my wife having worked here during the Hydro construction days serving an engineering officer for the Ministry of works on the power project. Now employed by the Mackenzie District Council as a Consents Engineer for 5 years based in Twizel. I have for the last 3 years been an active member of the Community board.

I am a member of the TPDA committee, the Twizel Heritage group and Civil Defence Volunteer group. I have an understanding of council's procedures and policies. I want to use this local knowledge to encourage discussion and to promote important local issues in a transparent making process. Working for the future of Twizel, Pukaki.
