Please explain your answer above

Land owner affected by proposed changes.

**I support/oppose the submission of:
(enter the name and address of original submitter and the original submitter number)**

I oppose the submissions of Herman Frank 06 Documents 1-5

The particular parts of the submission I support/oppose are:

(clearly indicate which parts of the submission you support or oppose, together with any relevant provisions of the proposal)

I am putting in a submission on plan change 23 in regards to the submission by Hermann Frank who is proposing shifting the MDC original consulted map lines in regards to plan change 23 proposed by Boffa Miskell. I believe this is a further invasion of property rights based around one person's ideology on what is significant. Also it goes against good consultation it was not signaled by The MDC in their public consultation with land holders. We also support Federated Farmers submission on moving the lines to the 900 metre contour, as it is already highly modified farm land below this.

The reasons for my support or opposition are:

(give reasons)

Proposed changes are an invasion of property rights. Proposed changes devalues private property. Proposed changes affect the ability to derive income for landowners and also flows on and affects the rest of the community.

Do you wish to be heard in support of your submission?

I do

If others make a similar submission would you be prepared to consider presenting a joint case with them at any hearing?

I would
