**Do you believe you could gain an advantage in trade competition through this submission?**

No

---

**The specific provisions of the proposal that my submission relates to are as follows:**

Noise

---

**I support/oppose these provisions:**

**(include whether you support or oppose in full or in part)**

I strongly object to the continual noise created by the sky diving aeroplane.

---

**The reason(s) for my submission are:**

**(state in summary your reasons, and whether you seek any amendments)**

The constant noise from the sky diving aeroplane starts as early as 7.30 am and can go on to 7pm at night. It flies every day of the year and the only reprieve from this constant drone noise is if the weather is completely fogged in. It is similar to a lawn mower, but at least a lawn mower eventually stops. This was a very quiet peaceful environment previously. I pay high rates and do not feel it is justified to live under a constant noise and drone from an aeroplane.

---

**I seek the following decision from the Mackenzie District Council: (give precise details)**

Either close the sky diving down or direct them in an area not disturbing the peace and tranquility of Twizel. As a ratepayer I require you to address this issue you as a council and civil aviation have created. It is not acceptable in this area.

---

**Do you wish to be heard in support of your submission?**

I do

---

**If others make a similar submission would you be prepared to consider presenting a joint case with them at any hearing?**

I would
