HOW MUCH SHOULD WE INVEST IN ROADS?

I/we prefer Option 1: Set aside a maximum budget of \$300,000 for each year of the plan for roading improvement projects, and borrow to fund Council's 49% share of this amount.

I/we prefer Option 2: Include budgets in each year of the plan for all roading improvement projects that attract NZTA co-funding, and borrow to fund Council's 49% share.

I/we prefer Option 3: Borrow for all roading improvements projects whether they are co-funded or not.

Why is this your preferred option?

Options 1 or 2 say the same thing. Personally I don't like borrowing but that seems to be the norm today!!

Also I don't see roading as an investment as it will always COST with comparatively little return. I know, without roads no tourists and that would upset businesses in the Mackenzie.

Pukaki Airport water upgrade.

Against Turiel Town water supply feeding the airport UNLESS Turiel has extra bores put down to compensate for what the airport developments take/use. Turiel has enough trouble now without added extras.

Tourism

N2 Ratepayers should NOT have to subsidise tourists. I believe in USER PAYS.

Infrastructure

A priority for Mackenzie ratepayers and the future increase in population. All new buildings should have to have a watertank in their plans to conserve ^{roof} water for gardens, lawns and emergencies in fire.
