Justin Geary and Rachael Handy	1.01	Support the rezoning applying to the entire title of 141 Nixon's Road (Lot 2 DP 422910)	Support	We would ask that the boundary of every proposed Specific Control Area is double checked to ensure that there is no split zoning across sites as this creates difficulties for the landowner in the future in how they are able to manage/develop their property in the future as on one side of the line they will be able to do one thing, and on the other side it can be a markedly different situation. This property boundary also follows a stream which acts a natural boundary, it would make more sense for this specific control area to follow this as well.	Allow in full	Amend the boundary of the Specific Control Area 9 to apply to the entire title of Lot 2 DP 422910. As a separate issue, check the boundary of all proposed specific control areas and zonings to ensure they follow property boundaries.
Mackenzie Properties	24.01	Support the proposed rezoning to allow 1 hectare allotments	Support	The availability of a reticulated sewer network should open this land up to development down to 1 hectare	Allow in full	Amend as proposed
