Q4 KEY ISSUE: ROADING - from the following options, which are described in more detail on pages 6 and 7 of the Consultation Document, which is your preference?

OPTION 1: Set aside a maximum budget of \$300,000 for each year of the plan for roading improvement projects, and borrow to fund Council's 49% share of this amount.

,
Why is this your preference?

(optional):

Limit debt, but it would be great to apply for extra funding from NZTA as \$300,000 is nowhere near enough to cope for future proofing our roads and bridges.

Q5 OTHER ISSUES: Do you have feedback on any of the other issues or projects outlined in the Consultation Document or any of the supporting documents? (note: you can upload your submission as a document if you prefer, or upload supporting documents, by going to the next question)

1. I would like to see at least one passing lane each way built per year on SH8. There are none in the MD and the road is getting busier and busier every year.

2. There needs to be a better water source solution for Twizel. People should be able to water their gardens etc when nearby farmers irrigate 1,000's acres through out the heat of a summer day. Install water meters and keep it fair. Push for high water users to install their own bores and use rainwater storage.

3. It would be great to have a heated indoor swimming pool in Twizel. Obviously this could be very expensive and the council appears not to have the money to fund this but it would be great to set a committee and have the support of the MCD to make this happen.

Q6 You can upload your submission or supporting documents here.
