Good morning Louise,

I hope you had a good Easter.

Please see attached a further submission relating to PC25. We would be grateful as previously mentioned if this could be presented to the hearings panel as a late submission with the context for this provided in the attached cover letter.

Please get in touch if you have any questions.

Kind regards, Carl

## **Overview**

Douglas McIntyre seeks to make specific further submissions on Plan Change 25. The submitter owns the Rural Lifestyle Zoned site located in the Ohau River Precinct. Given the land ownership, and in accordance with Clause 8(1)(b), it is considered that the submitter has an interest that is greater than the interest of the general public.

## **Context**

The original submission by Douglas McIntyre was withdrawn on Plan Change 25 for matters relating to legal access to the site. However, in doing so, it has revoked the submitter's ability to be heard in response to submission points relating to the zoning on their site. It was the intentions of the submitter that any matters arising from the submission process would have been dealt with during the hearing process, specifically through expert evidence.

By way of context, there is a 49-Lot subdivision consent (RM 230103) currently being processed by Council to give effect to the Rural Lifestyle Zoning that has existed on the site for 10+ years.

**Appendix A** outlines the further submission which directly relate to the proposed zoning on Douglas McIntyres site.

Pursuant to Clause 6 of the First Schedule of the Resource Management Act 1991, it is noted that:

- The submitter would like to be heard in support of its submission.
- The submitter could not gain an advantage in trade competition through this submission.
- If other persons are making a similar submission, the submitter would consider presenting joint evidence for the hearing.
