The specific
provisions of the
Proposal my
submission General - All
relates to are as
follows:
I support /
oppose these I oppose in full
provisions:

The reason(s) for my submission are:

The plan change and the submission process was advertised as if this would be some minor changes. Going onto the website it became apparent that this is a whole new district plan! It is impossible for a lay person to gain enough insight into all the zoning changes proposed. Consultation should have included comprehensive community meetings and sent out information in plain English about the plan change. I oppose the plan because of these deficits in the consultation process. Most people like myself were not capable of constructively contribute to this plan change. Website is convoluted and extremely confusing.

I seek the following

decision from the Re-start a meaningful consultation in person or with printed detailed information.
