Submission Details

The specific provisions of the Proposal my submission relates to are as follows:

Setting of div. density zoning. Looking at the proposed plans, we discovered they are in need of updating to be current. We also don't believe it makes sense, to have a density zoning boundary going straight through one properties. It feels the div. zoning boundaries are set by ,and we suggest to reset them with more consideration of impact of the user/resident/visitor/ and traffic management at the same time. It does not make sense, to have one side of road low density and the other side of the road high density. More cluster and all with the management of road usage/intensity in mind. Closer to town more density, the further away from town less density would make sense.

I support /
oppose these I oppose in part
provisions:

The reason(s)
for my see above
submission are:

I seek the
following
decision from to reconsider the whole zoning plan.
the Mackenzie
District
Council:

I do or do not
wish to be
heard in I do
support of my
submission:

If others make a
similar
submission I
would or would
not be prepared I would
to consider
presenting a
joint case with
them at any
hearing:

Additional
information for Sorry a bit time poor.. but please see the attached file with some other points
this submission:

Submission Proposed Plan Changes 21 & 22

We like to make submissions to following points in the proposed Plan Changes 21 & 22 and like clarification to following question:

Low Residential Zones: sections sizes between 400 – 600 m²: does this allow to subdivide a 800m² section into 2 sections of 400m² or can every 800m² section be treated as 2 x 400m² sections (same ownership)?

Access to Residential 2 or Tourism Zone

Road access to Residential 2 or Tourism Zones etc. should be direct of SH 8 and should not go via/past Res 1 Zones.

Zoning in Cairns Subdivision

In this subdivision are properties which are split into two different zones.
(Currently zoned Res 1 and "Tourism").

These properties: owners of properties should be able to decide in which zone they want to be.

The separation along altitude lines within one title/property should be avoided.

(Does not make sense, could lead to friction if adjoining properties are subject to diff. rules)!

LRZ-R2 Minor Residential Units

Should be allowed to be two storey to allow for garaging/storage/additional space on ground floor.

Allow more ecological and economical building and use of land. (Reduction of footprint, through higher building).

LRZ-R5 Residential Visitor Accommodation

Activity status: PER should be set at 10 guests per night – to be economically viable.

Subject: RE: Mackenzie District Council - Submission on Proposed Plan Change to the Mackenzie District Plan

Hi Charmaine.. hope you and Team are all well.

Sorry for the last minute submit of our submission again.. (my sincere apologies, I feel I am cursed)

Just had a bit problem to submit the Plan change 22, the system would not acknowledge the security keys.

Anyhow once, I got it through.. I discovered I made some mistakes, typing in a hurry, and I really would be very grateful, if you could add the corrections,

so it makes sense to who ever reads it. (I've typed the corrections in red)

Setting of div. density zoning. Looking at the proposed plans, we discovered they are in need of updating to be current. We also don't believe it makes sense, to have a density zoning boundary going straight through **one's property. It kind of feels the div. zoning boundaries were set a bit by chance, and we suggest to reset them with more consideration of impact of the user/resident/visitor/ and traffic management at the same time.** It does not make sense, to have one side of road low density and the other side of the road high density. More cluster and all with the management of road usage/intensity in mind. Closer to town more density, the further away from town less density would make sense.

Hoping this is doable, and not too much trouble.

Thank you so much.

Wishing you a very happy relaxing weekend.

Kind regards

Zita ☐
