

Fairlie Community Board Projects

Following the success of the Dog Park and the new BBQ by the playground, the Fairlie Community Board are keen to hear the community thoughts on new possible projects.

Do you have a great idea for something that would contribute to the community, which the Community Board could get behind?

Have your say at letstalk.mackenzie.govt.nz > Fairlie Community Board Projects 2026

Rates Due

A reminder that Mackenzie District quarterly rates payments are due on 20 September 2026.

Home energy toolkits

Alpine Energy and Mackenzie District Council now offer Home Energy Toolkits.

These toolkits can be used to identify key issues in a home that waste energy including: dampness, heat loss, and power-hungry appliances, giving you the tools to create a drier, more efficient home.

The kits can be borrowed from Mackenzie District Libraries at Fairlie and Twizel and staff can show you how to use them.

There will be future public sessions held at the libraries from Alpine Energy and Mackenzie District Council staff to demonstrate the advantages of the kit.

The public are welcome to attend meetings. Occasionally times and venues change so please call and check beforehand. There is a public forum at the beginning of each Council and Community Board meeting and members of the public are invited to address Elected Members on relevant matters.

Agendas for scheduled meetings are available two days before the meeting (with the exception of late papers, which are added to the agenda when available). Agendas for extraordinary meetings are made available as soon as practicably possible. (Extraordinary meetings are meetings held outside the published meeting schedule and are called when a decision cannot wait until the next scheduled meeting).

Once published, agendas are available at mackenzie.govt.nz > Council > Meetings and Agendas

* The length of the meeting will depend on the agenda.

Public Health Notice

Some plumbing fittings have the potential to allow minute traces of metals to accumulate in water standing in the fittings for several hours.

Although the health risk is small, the Ministry of Health recommends that you flush a cup-full of water from your drinking water tap each morning before use to remove any metals that may have dissolved from the plumbing fittings.

We are recommending this simple precaution for all households, including those on public and private water supplies.
