To: The Registrar  
Environment Court  
Christchurch

- 1 Balmoral Station (Tekapo) Limited (**BSTL**), incorporating Balmoral Station and Mt Hay Station, wish to become party to the abovenamed appeal.
- 2 BSTL is not a submitter to Plan Change 18 (Indigenous Biodiversity) (**PC18**) to the Mackenzie District Plan that is the subject of these proceedings.
- 3 BSTL, and shareholders of BSTL, own land and leasehold interests within the Mackenzie Basin subzone. That land is subject to the Mackenzie District Plan (**MDP**) and accordingly BSTL have an interest in these proceedings greater than the interest that the general public has – a right in property that is directly affected by the subject matter of the appeal, and which is not remote
- 4 The relief pursued in the appeal(s) has the potential to disadvantage BSTL through constraints on land use leading to direct consequences including the environmental, economic, and social costs of any change to the decision version of PC18.
- 5 BSTL are not trade competitors for the purposes of section 308C or 308CA of the Act.
- 6 BSTL are interested in all of the proceedings.
- 7 Without detracting from the generality of 6 above, those particular parts of the appeal in which BSTL are interested, and whether it supports or opposes those parts are identified in **Appendix A**. Appendix A is not specific to this appeal and identifies BSTL's position with respect to the following related appeals:

7.1.1 ENV-20210-CHC-91 – Meridian Energy Ltd (**MEL**)

7.1.2 ENV-20210-CHC-92 – Director-General of Conservation

7.1.3 ENV-20210-CHC-93 – Royal Forest and Bird

7.1.4 ENV-20210-CHC-94 – Environmental Defence Society  
Incorporated

- 8 BSTL support the relief sought by MEL in relation to the deletion of figure 1 and subsection (c) from the definition of '*significant indigenous vegetation and significant habitats of indigenous fauna*' because the map depicting Mackenzie Basin alluvial outwash and moraine ecosystems has not been ground-truthed or adequately consulted upon.
- 9 For all other appeals, BSTL oppose the relief sought because the outcomes have the potential to impose inappropriate restriction(s) and increased consenting obligations on the current and future farming operations at Balmoral Station and Mt Hay Station.
- 10 Further, BSTL consider that the relief sought:
- 10.1.1 Is inconsistent with the Canterbury Policy Statement 2013 (**CRPS**) and fails to provide a pathway for development and use of land in accordance with the concept of sustainable management prescribed in the Act. The decisions version of PC18 should be preferred.
  - 10.1.2 Does not differentiate between maintenance clearance and new clearance activities, a matter of critical importance to the ongoing viability of current farming operations in the Mackenzie Basin.
  - 10.1.3 Is inconsistent with section 32, the purposes and principals of part 2, and the requirements for district plans set out in sections 72, 74 and 75 of the Act.
  - 10.1.4 Will not promote certainty or provisions that are capable of construction and use by non-specialist users of the MDP.
  - 10.1.5 Is not supported by robust scientific assessment.
- 11 BSTL agree to participate in mediation or other alternative dispute resolution of the proceedings.

Dated 26 August 2021

---

**Katherine Forward**

Counsel for Balmoral Station (Tekapo) Limited

**Address for service:**
