Tēna koe,

**SUBMISSIONS ON MACKENZIE DISTRICT PLAN CHANGES 28 TO 30:
WITHDRAWAL OF REQUEST TO BE HEARD**

Following the lodging of submissions by the Director-General of Conservation on these proposed plan changes, Mackenzie District Council has now provided its s42A Reports.

Those reports have responded to the points made in the submissions and also reflect the outcomes of helpful discussions between DOC staff, reporting officers and other parties. As a result of that, the concerns raised in the submissions have largely been addressed, such that there are no outstanding matters that warrant appearance at the hearing.

I therefore advise that the Director-General no longer wishes to appear at the hearing in support of those submissions. Please inform the Hearing Panel accordingly.

I do note for the Panel's information that there appears to be a typo in Appendix 1 for the PC30 Part B report, where rule GSPZ-R12 applies a Kakī / Black stilt breeding season of "December through to August (inclusive)", which is presumably intended to be "August through December (inclusive)".

Please contact Murray Brass if you have any questions regarding this (027 213 3592 or mbrass@doc.govt.nz).

Yours sincerely

Di Finn
